## **About OceanaGold**

OceanaGold Corporation is a significant multinational gold producer with mines located on the South Island of New Zealand and in the Philippines. The Company's assets encompass New Zealand's largest gold mining operation at the Macraes Goldfield in Otago which is made up of the Frasers and Coronation open pits and the Frasers underground mine. On the west coast of the South Island, the Company operates the Reefton Open Pit mine. At the end of April 2015, the Company announced the acquisition of the high quality Waihi Gold Mine located on the North Island of New Zealand where the transaction is expected to close in the third quarter of 2015. In the Philippines, OceanaGold owns and operates its flagship operation, the Didipio Gold-Copper Mine located on the island of Luzon. OceanaGold has a pipeline of organic growth and exploration opportunities in the Australasia and Americas regions.

OceanaGold has operated sustainably over the past 25 years with a proven track record for environmental management and community and social engagement. The Company has a strong social license to operate and works collaboratively with its valued stakeholders to identify and invest in social programs that are designed to build capacity and not dependency.

In 2015, the Company expects to produce 295,000 to 335,000 ounces of gold from the combined New Zealand (excluding Waihi) and Didipio operations and 21,000 to 23,000 tonnes of copper from the Didipio operation.

OceanaGold is listed on the Toronto, Australian and New Zealand stock exchanges under the symbol OGC.
